# Fluidic Devices in PCB Technology

Mathias Nowottnick Lienhard Pagel Stefan Gassmann

Institute for Appliance Systems and Circuitry University of Rostock, Germany

Traditio et Innovatio

# OUTLINE

- Microsystems in Board
- Micro Fluidic Applications
- High Flow / Pressure Applications
- Quality & Reliability
- Special Coating and Joining Technologies
- Outlook

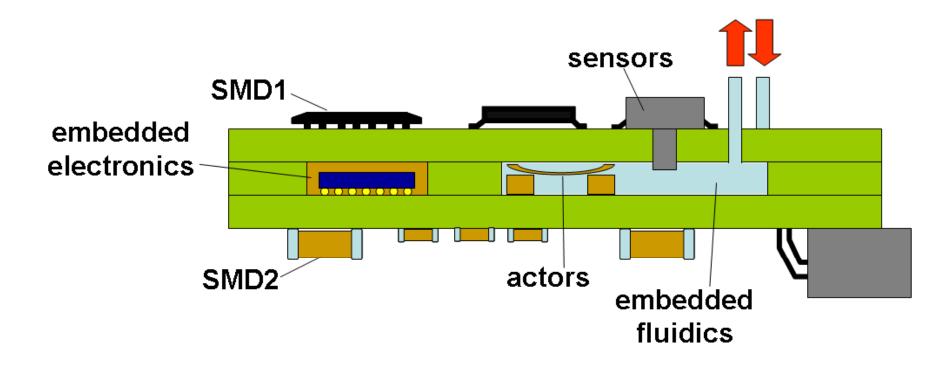

2

University of Rostock, IEF/IGS Institute for Appliance Systems and Circuitry Prof. Mathias Nowottnick Prof. Lienhard Pagel, Dr. Stefan Gassmann Downloaded from http://meridian.allenpress.com/imaps-conferences/article-pdf/2010/DPC/000557/2265816/2010dpc-ta21.pdf by guest on 03 January 2023

# **Microsystems in Board**

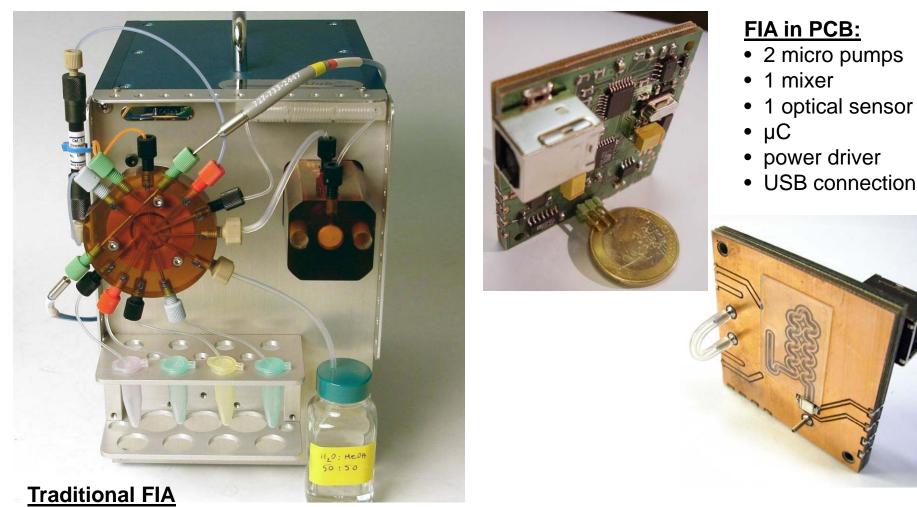

Principle and structure of combined fluidic-electronic systems in board

3

Traditio et Innovatio

### **Micro Fluidic Application**

### Example of a micro fluidic Flow Injection Analysis (FIA)

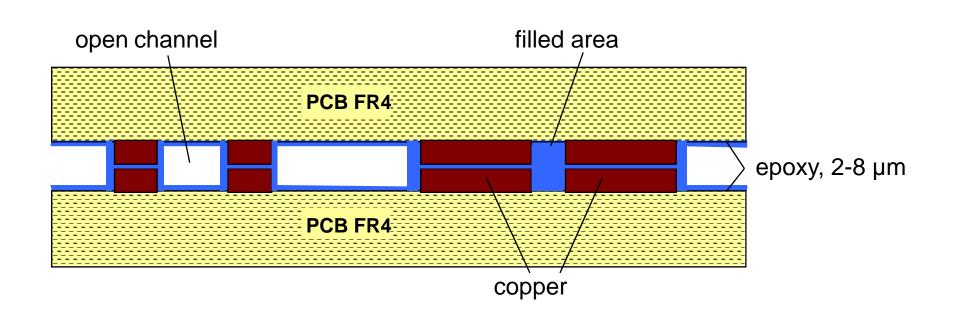

Universität Rostock

4

Traditio et Innovatio

# **Micro Fluidic Application**

Technology and design of open and closed channels

Universität Rostock

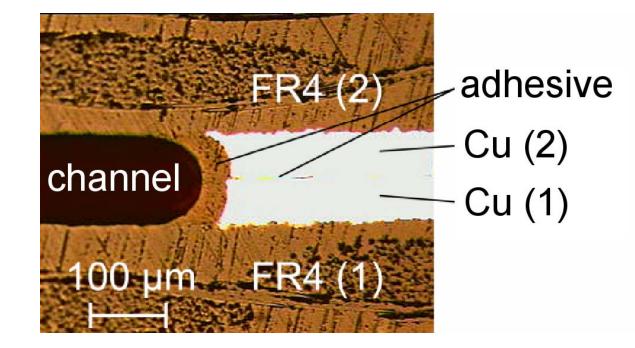

5

University of Rostock, IEF/IGS Institute for Appliance Systems and Circuitry Prof. Mathias Nowottnick Prof. Lienhard Pagel, Dr. Stefan Gassmann Downloaded from http://meridian

allenpress.com/imaps-conferences/article-pdf/2010/DPC/000557/2265816/2010dpc-ta21.pdf by guest on 03 January 2023

# **Micro Fluidic Application**

Channel structure of a micro fluidic PCB

Universität Rostock

**Channels:** 

6

width < 1 mm

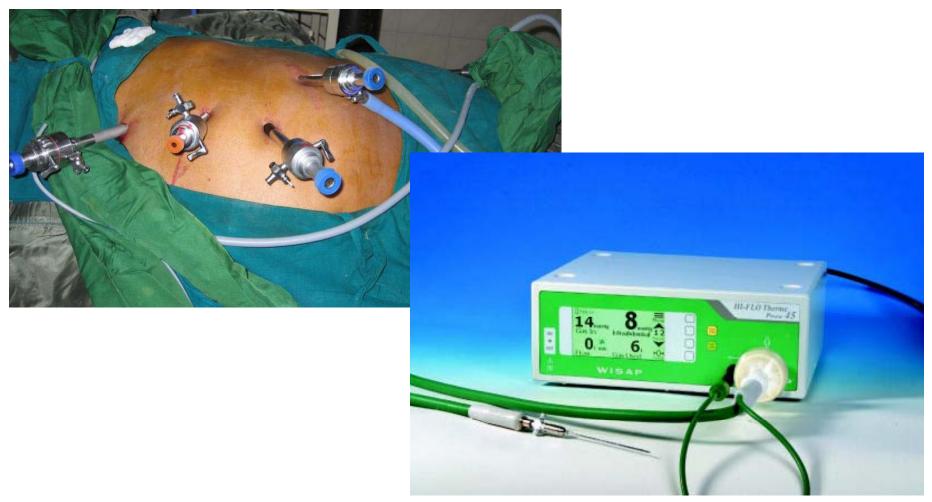

height 50...100 µm

flow rate 0.5 ml/min

Traditio et Innovatio

# High Pressure / High Flow Application

### Insufflator for keyhole surgery

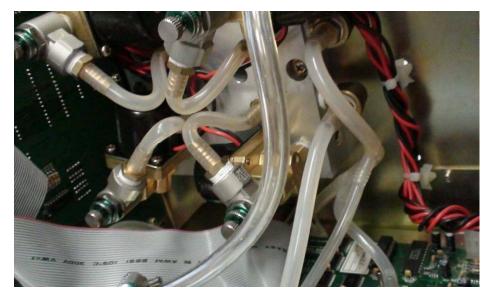

Universität Rostock

7

University of Rostock, IEF/IGS Institute for Appliance Systems and Circuitry Prof. Mathias Nowottnick Prof. Lienhard Pagel, Dr. Stefan Gassmann Downloaded from http://meridian.allenpress.com/imaps-conferences/article-pdf/2010/DPC/000557/2265816/2010dpc-ta21.pdf by guest on 03 January 2023

# **High Pressure / High Flow Application**

**Traditional version:** Realization of flow with tubes and hoses. Fluidics and electronics separated

**New PCB version:** Realization of flow with channels in PCB Integration of fluidics and electronics

Example of an electronic-pneumatic system in PCB (insufflator)

Universität Rostock

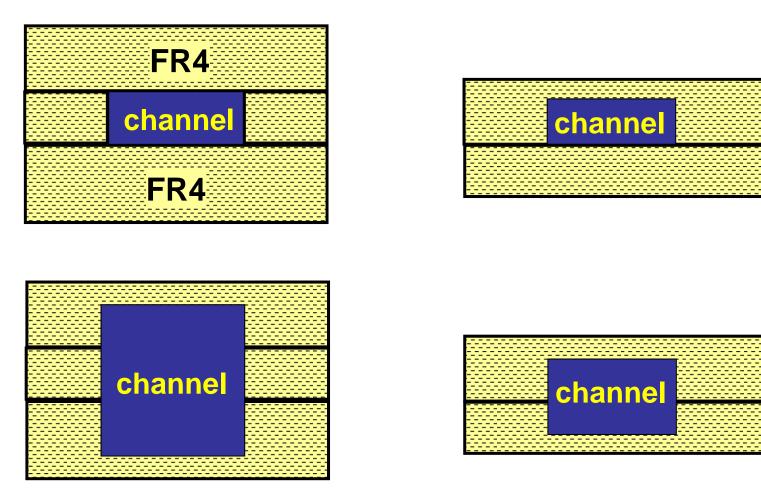

Traditio et Innovatio

University of Rostock, IEF/IGS Institute for Appliance Systems and Circuitry Prof. Mathias Nowottnick Prof. Lienhard Pagel, Dr. Stefan Gassmann

Downloaded from http://meridian.allenpress.com/imaps-conferences/article-pdf/2010/DPC/000557/2265816/2010dpc-ta21.pdf by guest on 03 January 2023

## High Pressure / High Flow Application

Schematically cross section of channels produced by milling

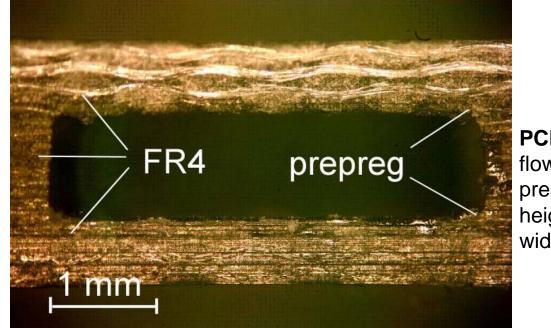

Universität Rostock

9

University of Rostock, IEF/IGS Institute for Appliance Systems and Circuitry Prof. Mathias Nowottnick Prof. Lienhard Pagel, Dr. Stefan Gassmann Downloaded from http://meridian

# High Pressure / High Flow Application

PCB-Channels: flow rate < 50 l/min pressure < 8 bars height 1 mm width 6 mm Downloaded from http://meridi

.000 com/imaps-conferences/article-pdf/2010/DPC/000557/2265816/2010dpc-ta21.pdf by guest on 03 January

### Channel structure of an electronic-pneumatic PCB

000566

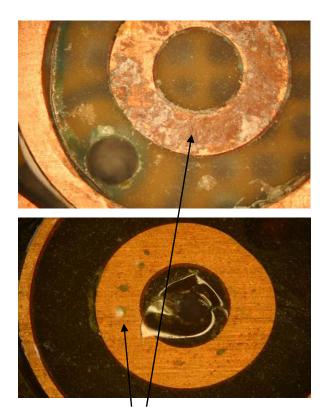

Universität Rostock

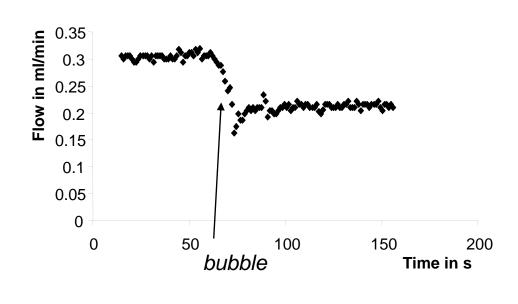

10

Traditio et Innovatio

# **Quality & Reliability**

pump behavior with bubble

particles and bubbles on valve seat

Investigation of robustness of micro pumps

Universität Rostock

11

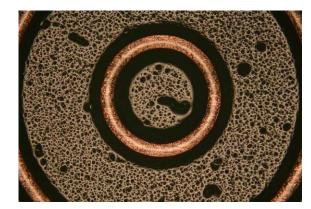

# **Quality & Reliability**

10 cm/min no complete layer

20 cm/min ring on valve seat

Downloaded from http://meridian.allenpress.com/imaps-conferences/article-pdf/2010/DPC/000557/2265816/2010dpc-ta21.pdf by guest on 03 January 2023

30 cm/min complete layer

coating with epoxy glue with optimized viscosity

Increasing reliability by covering of the valve seat

12

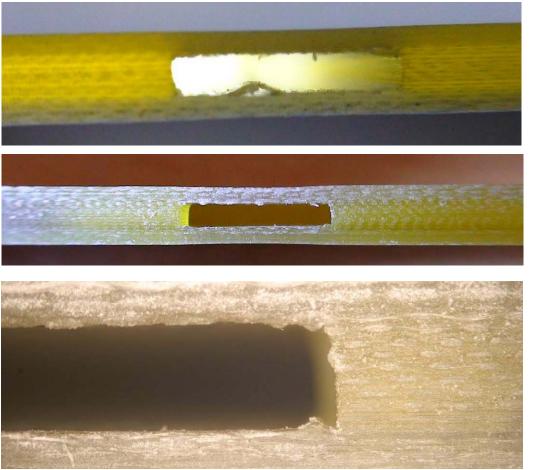

IMAPS Device Packaging Conference 2010

### FLUIDIC DEVICES IN PCB TECHNOLOGY

# **Quality & Reliability**

warping of prepreg layers

deformation of channel covers

squeezing of material excess

Typical problems in manufacturing of high-flow channels

Universität Rostock

13

Traditio et Innovatio

# **Quality & Reliability**

Reliability testing at elevated temperature (and humidity)

Universität Rostock

14

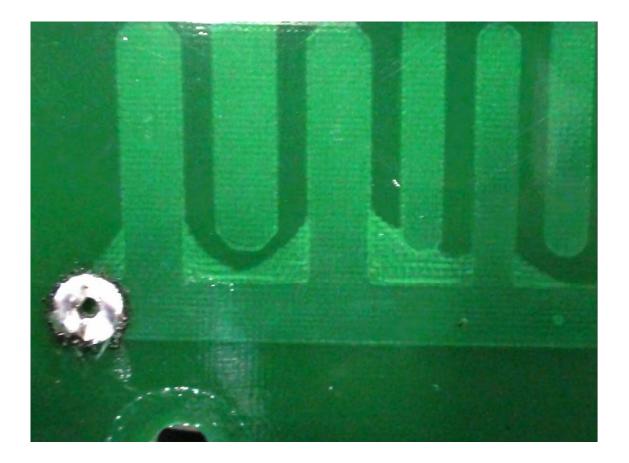

Traditio et Innovatio

IMAPS Device Packaging Conference 2010

### FLUIDIC DEVICES IN PCB TECHNOLOGY

# **Quality & Reliability**

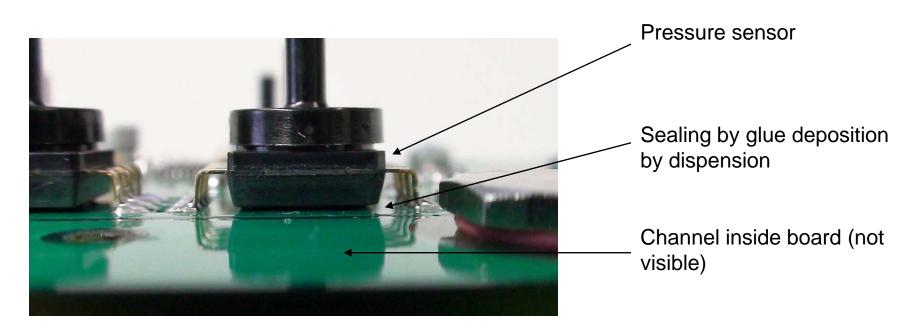

Delamination after a high-temperature/high pressure test at 135 °C / 10 bar

Universität Rostock

15

# **Quality & Reliability**

### Joining and sealing of pressure sensors

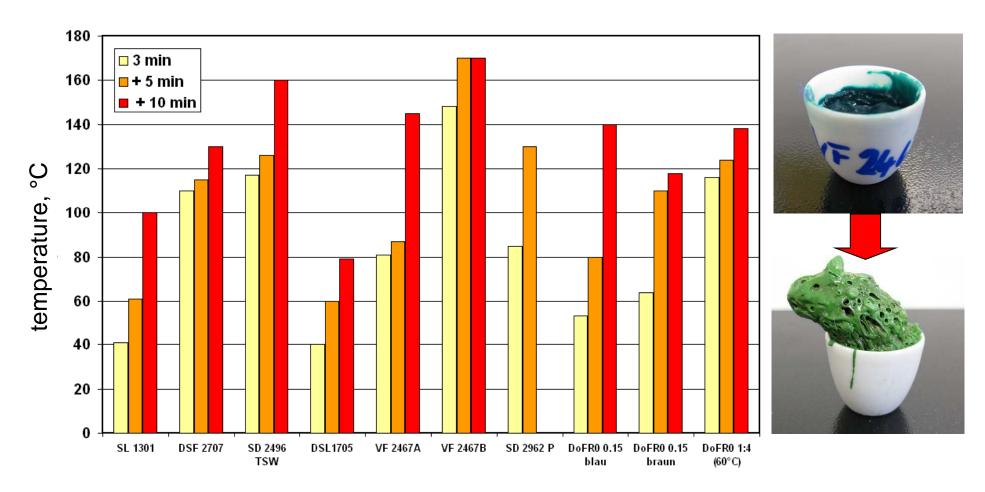

Universität Rostock

16

Traditio et Innovatio

# **Special Coating and Joining Technologies**

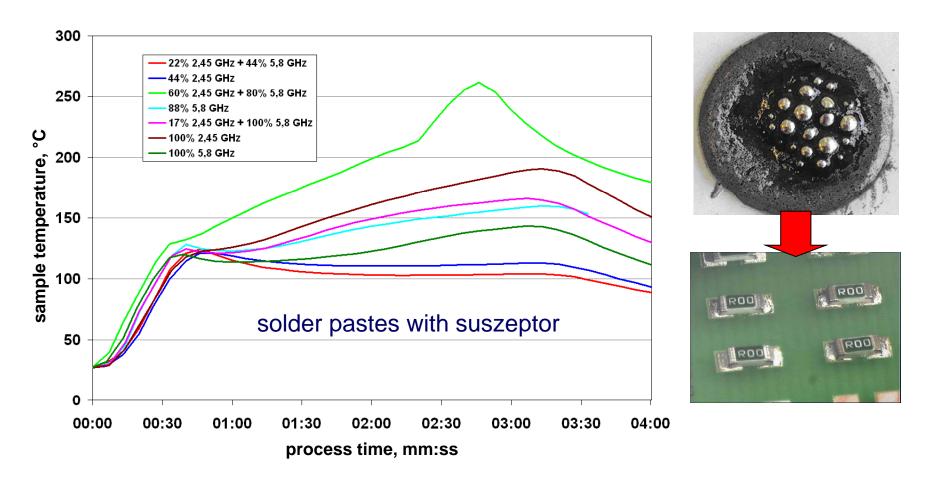

Microwave-curing of polymer coatings (epoxy, silicon, polyurethane) [Project MicroFlam]

17

Traditio et Innovatio

# **Special Coating and Joining Technologies**

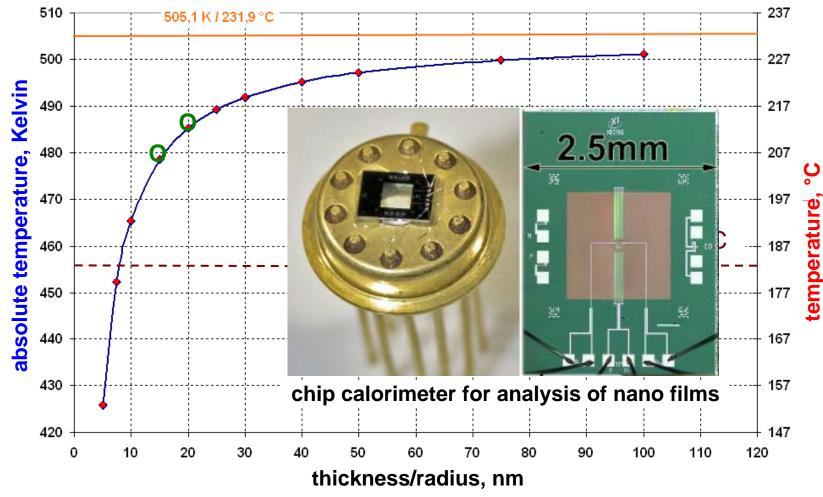

Melting behaviors of solder pastes in a combined microwave oven [Project Microflow]

18

# Special Coating and Joining Technologies - Outlook

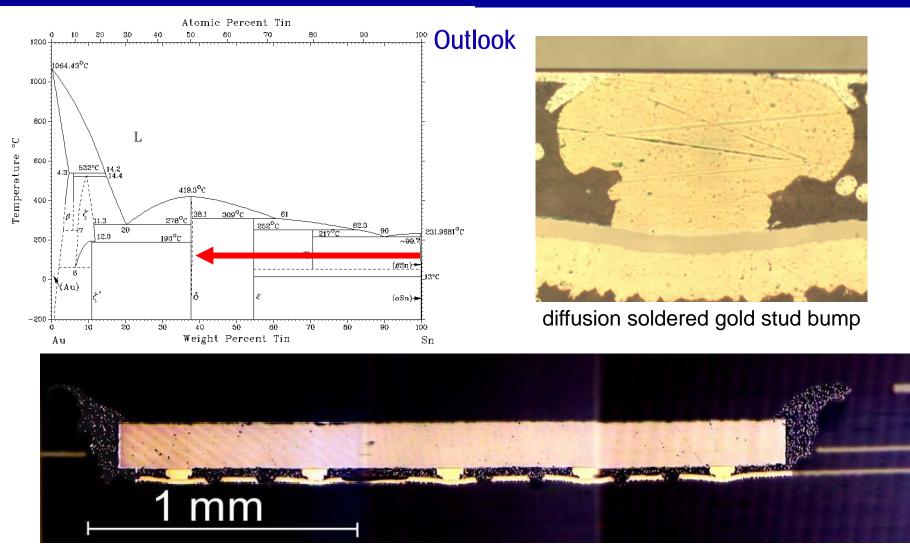

Field of research: Low temperature soldering with nano-solder-films [A. Novikov]

Universität Rostock

19

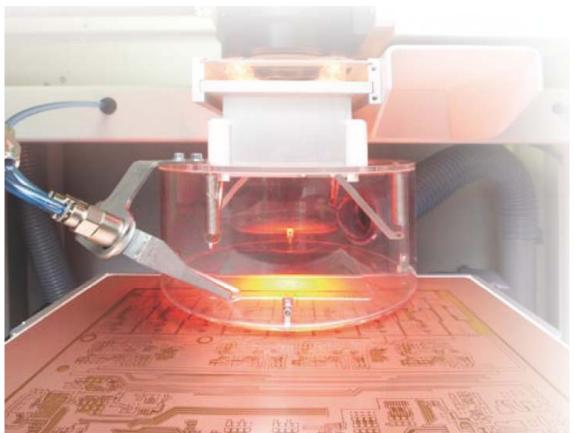

### Example of an embedded chip in PCB with "Laser Cavity" (Wuerth)

Universität Rostock

20

### Outlook

nent of PCB (LPKF)

Finer structures (>25  $\mu m)$  by laser treatment of PCB (LPKF)

Universität Rostock

21

Traditio et Innovatio

Universität Rostock

22

Traditio et Innovatio
